EDUCATION

Western University

London, ON, Canada

BSc & AEO, Computer Science and Ivey Business (GPA: 3.95/4.0)

Sep. 2024 – Apr. 2028

- **Awards:** Western Dean's Honour List (2024-2025), Western Scholarship of Distinction (2024-2025)
- **Coursework:** Data Structures and Algorithms, Software Tools and Systems Programming, Accounting and Business Analysis

EXPERIENCE

Project Management Intern

May 2025 – Aug 2025

AE&E Geomicrobial Technologies Inc.

Beijing, China

- Accelerated project alignment for a decade-old platform redesign within days by conducting initial user research and building high-fidelity Figma prototypes to bridge the gap between executive vision and engineering constraints.
- Streamlined the development lifecycle, successfully reducing a complex 50-page sitemap into 15 strategic user journeys, by writing clear product requirements, user stories, and acceptance criteria.
- Ensured the timely delivery of a responsive Next.js web application by facilitating sprint planning and leading cross-timezone collaboration between the CEO and the technical development team.

Digital Marketing Strategist

Nov. 2024 – Apr. 2025

GD Hub Smart Trading Group

Vancouver, BC, Canada

- Scaled personalized client outreach capacity by 3x and reduced content turnaround time by 40% by leading the end-to-end product development of an automated AI-avatar workflow using n8n, ChatGPT, and ElevenLabs.
- Secured executive buy-in for new AI features, overcoming initial stakeholder skepticism, by analyzing engagement bottlenecks and building a realistic functional prototype using Synthesia.
- Optimized cross-functional operations and informed ongoing product decisions by leveraging basic data analysis to deliver cost-efficient automation strategies that directly supported revenue growth.

PROJECTS

Shelfie (Smart Pantry Tracker) | Product Strategy, UI/UX Design

2026

- Spearheaded the product strategy for a digital inventory app designed to reduce household food waste by defining clear product requirements for proactive expiry push notifications, real-time household syncing, and an AI-powered receipt scanning feature.

AI Task Management System | LLMs, Product Design

2025

- Built an AI-enabled task management application, reducing user startup friction for complex goals, by defining product requirements and integrating Large Language Models (LLMs) to automatically generate actionable sub-tasks.

Dropshipping Venture & Storefront | E-commerce, Data Analysis

2025

- Achieved 2 million combined views and successfully captured niche market demand for Gonggi toys by conducting competitive analysis and optimizing the e-commerce storefront user journey.

TECHNICAL SKILLS

Languages: Python, Java, C, HTML/CSS, English (Native), Mandarin (Native)

Frameworks: Next.js, Tailwind CSS, TypeScript

Developer Tools: Cursor, Figma, n8n, ElevenLabs, MidJourney, Synthesia

Core Competencies: Product Strategy, Agile Methodologies, User Research, Requirement Documentation, Data Analysis, Wireframing

Other: Authorized to work for any US employer (no sponsorship required)
